

COMBINATION PACKAGE FOR ARTIFICIAL FINGERNAILS

Abstract of the Disclosure

[0043] Artificial fingernail packages are provided
5 that contain a collection of artificial fingernails
such that a user may purchase a single package that is
sufficient to satisfy the needs associated with having
natural fingernails of varying sizes and shapes. The
artificial fingernail packages according to the present
10 invention also permit a potential user to easily
identify and compare to the user's natural fingernails
the size, shape and other features of the included
artificial fingernails.
